RFP 006-DR-2019- STT/STX
REQUEST FOR PROPOSALS
GRANTS MANAGEMENT SYSTEM

1.0 INTRODUCTION

The Virgin Islands Housing Finance Authority (“VIHFA”) is soliciting proposals from qualified and licensed firms or individuals to provide a Grants Management System for VIHFA’s CDBG-DR program.

1.1 CONTEXT

Hurricanes Irma and Maria had a devastating impact on the United States Virgin Islands (U.S. Virgin Islands or “the Territory”). The two back-to-back Category 5 storms in September 2017 caused significant damage and destruction to the islands’ housing stock. The entire population—over 100,000 residents—was impacted by the devastation brought on by the storms, with winds of over 185 miles per hour and up to 20 inches of rain in some areas. Irma crossed the islands as a windstorm tearing the roofs off buildings in her path; Maria came behind and caused water damage to all of the unprotected structures in the St. Thomas and St. John district, while inflicting severe damage on St. Croix.

Based on the FEMA IA data as of August 10, 2018, the Territory estimates that approximately 23,301 households sustained some form of damage to their primary residences from either Hurricane Irma or Maria, or both, representing 54% of the housing stock on the islands. Of the impacted households, based on The U.S. Department of Housing and Urban Development’s (HUD) methodology, 5,340 suffered Major or Severe damage; approximately 2,510 are the owners’ primary residences and 2,830 are renter-occupied homes. The remaining 12,394 owner-occupied residences and 5,567 rental units sustained minor damage.

The United States Virgin Islands is the recipient of \$1.86 billion of Community Development Block Grant – Disaster Recovery (CDBG-DR) funding from HUD to assist in disaster recovery and rebuilding efforts resulting from Hurricanes Irma and Maria. The Territory’s approved CDBG-DR Action Plan and Amendment 1 (<https://www.vihfa.gov/disaster-recovery/action-plan>) detail how the U.S. Virgin Islands plans to spend its first and second tranches of \$1,021,901,000 in grant funds, and Respondents to this RFP should thoroughly review it.

As the administering entity of the CDBG-DR funds, VIHFA has developed a portfolio of programs which will require them to utilize a Grants Management System across its programs.

1.2 GOALS AND OBJECTIVES

VIHFA seeks a qualified contractor to provide a grants management system in support of its CDBG-DR funded programs.

2.0 SCOPE OF WORK

Under the supervision of and in collaboration with VIHFA, the selected Respondent(s) shall perform the tasks and services identified below if requested by the Territory.

The selected Respondent will be responsible for providing a grant management system to serve as a bridge between the VIHFA financial system, a CDBG-DR case management system to be provided by a separately procured Case Management Services vendor, and The Disaster Recovery Grant Reporting (DRGR) System utilized by the U.S. Department of Housing and Urban Development (HUD). Respondents to this RFP must provide a nimble, scalable, user friendly, and intuitive software solution capable of being customized to VIHFA specifications, which may change and evolve over the life of the CDBG-DR grant. The recommended system shall include a database, system logic, document management, user interface, workflow and easily customizable reporting. Respondent should recommend a software solution as well as a process for rapidly and efficiently providing database and system logic modifications as requested by VIHFA.

Respondents must have relevant experience providing such software in a disaster recovery context in the last five (5) years. The Respondent must have the administrative infrastructure to effectively manage and support training, service delivery and software development processes. Additionally, Respondent should provide detailed information about the experience and qualifications of the Respondent's assigned personnel considered key to the success of the project. Demonstration of experience and knowledge should include education, training, technical experience, functional experience, specific dates and names and contact information for clients, relevant and related experience, past and present projects with dates and responsibilities and any applicable certifications.

2.1.1 TASK (1): DEPLOY RECOMMENDED SOFTWARE SOLUTION AND PROVIDE USER LICENSES

- Learn about existing VIHFA software, specific DRGR requirements, and existing processes that must be incorporated into software build out.

- In collaboration with VIHFA, establish process graphics for various functional processes necessary to be established within software solution for tracking of information such as (but not limited to) CDBG-DR revenues, expenditures, contracts, beneficiaries, and Federal reimbursements. VIHFA will rely on Respondent's expertise in providing such software solution in the past to inform these process graphics and requirements documents in the VIHFA context.
- Develop permissions and access controls to protect VIHFA and applicant information from unwarranted access and dissemination.
- Provide remote and/or onsite training to users and basic information about software solution functionality and capabilities, including examples of use in previous disaster contexts.

2.1.2 TASK (2): TAILOR RECOMMENDED SOFTWARE SOLUTION STRUCTURE

- Timeframe: To be completed within 90 days of contract award
- Develop connections between software solution and data from existing financial management SAP enterprise system, DRGR, Case Management System and the Disaster Recovery website.
- Establish tables and relationships within software solution to match process flow developed in Task 1. Demonstrate integrity of relationships using test data.
- Establish internal controls to maintain integrity of data and ensure erroneous data is not imported or created into key tables (such as SAP expenditures). Limit access and restrict user abilities on key tables where practical.
- Establish internal controls (approvals, system checks, data validation) within software solution to maintain data and prevent errors.
- Develop a software solution instruction manual that describes standard operating procedures, established processes, and workflows and handoffs within the system.

2.1.3 TASK (3): CONTINUED SUPPORT OF SOFTWARE SOLUTION

- Timeframe: Long-Term buildout
- In collaboration with VIHFA, continue to provide modifications and system buildout to incorporate additional processes, form controls, and functions as requested.

- Provide hosting solution (either through Respondent, cloud, or third-party vendor) and problem-solving support as requested.
- Provide real-time helpdesk assistance, including data access requests and login issues, resolving glitches, and making recommendations as necessary.

2.2 KEY DELIVERABLES

Requests for services from the VIHFA will come in the form of task orders which will describe the scope of work, deliverables, budget, and schedule. The completion of each task order shall constitute a separate deliverable. Failure to perform within the requested time frames may result in penalties.

17.0 SELECTION PROCESS

VIHFA will evaluate all Proposals that are received in a proper and timely manner to determine whether they meet the submission requirements. Awards are made to the most responsive bidder that provides the proposal that is most advantageous to VIHFA, considering such factors as the Bidder's ability to perform the work of the kind involved in the bid under consideration, the Bidders' past experience, time of delivery, etc. and not solely the lowest price.

VIHFA, at its sole discretion, will determine which Proposal best satisfies its requirements. All Proposals deemed to be responsive to the requirements of this RFP will be evaluated and scored for technical qualities and price. Proposals that are materially deficient in meeting the submission requirements of this RFP or have omitted material documents may be eliminated from consideration at the sole discretion of VIHFA. The evaluation process will include separate technical and price evaluations and will be conducted as set forth herein.

Through an evaluation panel, VIHFA will establish a shortlist, either through a natural break in scores or a technically viable cut off technical score. The panel will then evaluate the Price Proposals of only those proposals that have made the cut off/it deems technically qualified. Depending on the number of respondents, VIHFA reserves the right to deviate from this approach.

VIHFA reserves the right to award contracts based on initial proposals received, without discussions; therefore, the Respondent’s initial proposal should contain its best technical and price terms.

The Evaluation Committee Panel is responsible for evaluating all responsive Respondents’ submittals. The Evaluation Committee Panel will consider the following criteria:

Evaluation Factors	Total Points
<u>Technical</u>	
Technical Qualifications and Experience	30

Grants Management System Services Capabilities	25
Approach and Methodology	25
Pricing	
Pricing	20
Total:	100

The proposer with the lowest total pricing shall receive a score of 20 points for the pricing category. The remaining proposers will receive a price score based upon the following formula:

$$CS = (LCP/PC*20)$$

Where:

CS = Computed cost score (points) for proposer being evaluated

LCP = Lowest cost proposed of responses deemed technically feasible

PC = Proposer's total cost

17.1 INTERVIEW AND/OR DEMO

17.2 RIGHT TO REJECT BID PACKAGES

VIHFA reserves the right to reject, without prejudice, any and all bids submitted in response to this solicitation. Further, Bids submitted in response to this solicitation become the property of VIHFA and VIHFA may use any idea or concept in a submitted bid, regardless of whether that bid is selected for award.

17.3 CHANGES, ADDENDA, AND WITHDRAWALS

VIHFA reserves the right to change the schedule of events or revise any part of the RFP by issuing an addendum to the RFP at any time. Addenda, if any, will be posted at <https://www.vihfa.gov/disaster-recovery/contracts>.

CONFLICT OF INTEREST

By signing this form, the Respondent certifies that, to the best of its knowledge and belief, there are no relevant facts or circumstances that could give rise to an organizational or personal conflict of interest, for the organization or any of its staff, and that the Respondent, subcontractor, employee, or consultant has disclosed all such relevant information if such a conflict of interest appears to exist to a reasonable person with knowledge of the relevant facts (or if such a person would question the impartiality of the Respondent, subcontractor, employee, or consultant).

Conflicts may arise in but not limited to the following situations:

- a. Unequal access to information. A potential respondent, subcontractor, employee, or consultant has access to non-public information through its performance on a government contract for disaster recovery services in the Virgin Islands.
 - b. Biased ground rules. A potential respondent, subcontractor, employee, or consultant has worked, in one government contract, or program, on the basic structure or ground rules of another government contract for disaster recovery services in the Virgin Islands.
 - c. Impaired objectivity. A potential respondent, subcontractor, employee, or consultant, or member of their immediate family (spouse, parent, or child) has financial or other interests that would impair, or give the appearance of impairing, impartial judgment in the evaluation of government programs, in offering advice or recommendations to the government, or in providing technical assistance or other services to recipients of Federal funds as part of its contractual responsibility.
- 1) Proposer must provide the disclosure described above on any actual or potential conflict of interest (or apparent conflict of interest) regardless of their opinion that such a conflict or potential conflict (or apparent conflict of interest) would not impair their objectivity.
 - 2) In a case in which an actual or potential conflict (or apparent conflict of interest) is disclosed, the VIHFA will take appropriate actions to eliminate or address the actual or potential conflict, including but not limited to mitigating or neutralizing the conflict, when appropriate, through such means as ensuring a balance of views, disclosure with the appropriate disclaimers, or by restricting or modifying the work to be performed to avoid or reduce the conflict. In this clause, the term “potential conflict” means reasonably foreseeable conflict of interest.
 - 3) The Respondent, subcontractor, employee, or consultant agrees that if “impaired objectivity”, or an actual or potential conflict of interest (or apparent conflict of interest) is discovered after the award is made, it will make a full disclosure in writing to the contracting officer. This disclosure shall include a description of actions that the Proponent has taken or proposes to take to avoid, mitigate, or neutralize the actual or potential conflict (or apparent conflict of interest).

The Respondent, _____, hereby certifies that, to the best of its knowledge and belief, there are no present or currently planned interests (financial, contractual, organizational, or otherwise) relating to the work to be performed under the contract or task order resulting from Request for Proposal No. **RFP 006-2019-DR-STT/STX** that would create any actual or potential

conflict of interest (or apparent conflicts of interest) (including conflicts of interest for immediate family members: spouses, parents, children) that would impinge on its ability to render impartial, technically sound, and objective assistance or advice or result in it being given an unfair competitive advantage. In this clause, the term “potential conflict” means reasonably foreseeable conflict of interest. The Respondent further certifies that it has and will continue to exercise due diligence in identifying and removing or mitigating, to the VIHFA's satisfaction, such conflict of interest (or apparent conflict of interest).
