REQUEST FOR PROPOSALS

Electrical Power Grid Action Plan(s) & Amendments

1.0 INTRODUCTION

The Virgin Islands Housing Finance Authority (“VIHFA”) is soliciting proposals from qualified and licensed firms (“Respondents”) to assist in the development and writing of an Electrical Power Grid Action Plan & Amendments for the Community Development Block Grant Disaster Recovery (CDBG-DR) Program.

Respondents will be proposing to provide an Electrical Power Grid Action Plan & Amendments for the CDBG-DR Program, as more fully described in Section 2. The submissions of all Respondents shall be compared and evaluated pursuant to the evaluation criteria set forth in this RFP. Respondents must respond to all components of the scope.

1.1 CONTEXT

Hurricanes Irma and Maria had a devastating impact on the United States Virgin Islands (USVI or “the Territory”). The two back-to-back Category 5 storms in September 2017 caused significant damage and destruction to the islands’ housing stock. The entire population—over 100,000 residents—were impacted by the devastation brought on by the storms, with winds of over 185 miles per hour and up to 20 inches of rain in some areas. Irma crossed the islands as a windstorm tearing the roofs off buildings in her path; Maria came behind and caused water damage to all of the unprotected structures in the St. Thomas and St. John district, while inflicting severe damage on St. Croix.

The USVI is the recipient of CDBG-DR funding from United States Department of Housing and Urban Development (HUD) to assist the electrical power system enhancements and improvements for Puerto Rico and the USVI.

The Territory will use this and future allocations to fund programs that will help increase overall community resilience and further enable economic growth.

Respondents to this RFP should thoroughly review the CDBG-DR Electrical Action Plan, Federal Register Volume 86, No. 117 available at:

- FR-6261-N-01: <https://cdbgdr.vihfa.gov/home/cdbg-electrical/>

2.0 PROPOSAL (GENERAL) DESCRIPTION

The VIHFA seeks to select a firm to assist with providing technical services related to the preparation, completion, submittal and approval of an Electrical Grid Action Plan that describes the proposed uses for the funds currently allocated to the USVI from the HUD for system improvements to the electrical grids. The plan development process and plan content should align with the rules and regulations outlined in the published federal register notice. Respondent may also be expected to help with the programmatic implementation and compliance, as needed.

Respondents must have relevant, and documented experience with electrical grid power systems and CDBG-DR Action Plan writing and development experience. Additionally, Respondent should provide detailed information about the experience and qualifications of the Respondent's assigned personnel considered key to the success of the project. Demonstration of experience and knowledge should include education, training, technical experience, functional experience, specific dates and names and contact information for employers, relevant and related experience, past and present projects with dates and responsibilities and any applicable certifications.

2. As directed by "VIHFA", meet with stakeholders including but not limited to the VI Water and Power Authority ("WAPA"), the U.S. Department of Energy ("DOE"), the VI Energy Office ("VIDOE") and the Energy Technical Coordination Team ("TCT"), including FEMA, the U.S. Department of Treasury, U.S. Department of Interior and the V.I. Public Service Department.
3. Incorporate the Electrical Power System Needs Assessment as developed by the VIHFA and other stakeholders into the Action Plan, recognizing the needs assessment is the basis of funding and prioritization for planned activities to improve the electrical power system and covers all aspects of, and including within the Action Plan.
4. Maintain records of work with stakeholders as they determine the unmet needs for the enhancement or improvement of the electrical power system which shall be used to develop the Action Plan and prioritize the planned activities to improve the electrical power system.

5. Assist VIHFA and/or other identified entities, if needed, with evaluations of all aspects of the electrical power-system that were damaged by the disaster and that are at greatest risk from future disasters.
6. Ensure that the Action Plan includes clear descriptions of how unmet needs specify how CDBG-DR funds are planned for uses that meet electrical power system needs that are not likely to be addressed by the Federal Emergency Management Agency (FEMA) or other sources of funds by accounting for the various forms of assistance available to, or likely to be available to, the grantee or its subrecipients (e.g., obligated, and projected FEMA funds, public utility resources, other grantee funds).
7. Develop and provide records of any assumptions used to develop the Action Plan(s), and any amendments.
8. An approved plan must meet the following requirements:
 - Identify the use of grant funds,
 - Establish eligibility criteria to prioritize funds expenditure to components of improvement and upgrade of the system,
 - Outline how proposed uses will address necessary expenses related to long-term disaster recovery, restoration of infrastructure, housing and economic revitalization; and
 - Outline how uses are to be determined to improve cost-effectiveness, reliability, resilience, efficiency, sustainability and long-term financial viability of electrical power systems as outlined in Federal Notice 6261-N-01.
9. The Action Plan must consider and incorporate electrical power system industry standards as established by relevant Federal agencies, including but not limited to the Rural Utilities Services, National Institute of Standards and Technology and North American Electrical Reliability Corporation, as applicable.
10. The Action Plan should reference any long-term infrastructure plan developed in consultation with FEMA, use of FEMA funds for electrical power system improvements or with any utility integrated resource plan or other strategic plan adopted by the grantee for development of its energy infrastructure.
11. The Action Plan shall identify how proposed expenditures for each distinction functional component of the planned electrical power systems improvements addresses an estimated unmet need identified in the electrical power system unmet needs assessment.
12. The Action Plan must include a single chart or table that illustrates how all funds are budgeted and identifies each component of the electrical power system to be funded.

13. The Action Plan shall identify the pre-development, planning, construction and installation costs of each component, percentage of funds to be expended for each component; percentage of funds to be expended as the non-Federal match for other Federal funds and timeline for the full expenditure of each system component and for the full grant allocation
14. The Action Plan shall include long-term planning considerations which describe how the grantee plans to promote local and regional long-term planning and development as determined by its electrical power system needs assessment.
15. The Action Plan shall describe how the USVI will align its electrical power system with other planned improvements to other energy systems and its other infrastructure development efforts and foster the potential for additional electrical power system funding from multiple sources, such as leveraging other existing capital improvement projects and the potential for private investment; and identify any leverage funds for each electrical power system improvement activity in the Disaster Recovery Grant Reporting System, (“the DRGR”) system.
16. The Action Plan must describe plans to minimize displacement of persons or entities and assist any persons or entities displaced through its electrical power system improvement activities.
17. The Action Plan must describe how the USVI plans to:
 - a. emphasize quality, durability, resiliency, energy efficiency and sustainability in its electrical power system improvements;
 - b. promote sound, sustainable long-term recovery planning informed by a post-disaster evaluation of hazard risk, especially construction standards and land-use decisions that reflect responsible floodplain and wetland management and take into account continued sea level rise—this information should be based on the history of FEMA flood mitigation efforts and take into account projected increase in sea level (if applicable) and the frequency and intensity of precipitation events; and
 - c. adhere to any elevation requirements as established in the Federal Notice.
18. The Action Plan shall describe long-term operation and maintenance of CDBG-DR funded system improvements and specify any non CDBG-DR sources of funding to be used for operations and maintenance of improvements, including reserve funds, borrowing authority, or retargeting of existing financial resources.
19. The Action Plan shall outline any plans to ensure and monitor funding for long-term operations and maintenance of CDBG-DR electrical power system improvements.

20. The Action Plan must describe any proposed changes to existing taxation policies or collection practices, or changes to public utility revenue billing and collection and other financing policies that are to be used to support the Operation and Management Plan. If operations and maintenance plans are reliant on any proposed changes to existing taxation policies, tax collection practices, or changes to public utility revenue billing and collection, those changes and relevant milestones should be expressly included in the action plan. Additionally, the grantee must describe any State, local, or other resources (e.g., public utility financing) that have been identified for the operation and maintenance costs of electrical power system improvements assisted with CDBG-DR funds.
21. The Action Plan shall describe controls for assuring that electrical power system improvement, including any acquisition and construction costs, are reasonable and consistent with market costs.
22. The Action Plan must describe planned coordination activities with other relevant governmental agencies of the USVI, as applicable, units of local government, public utilities and rural electrical cooperatives, and other entities, to assure the consistency of all CDBG-DR funded electrical power system improvements with other disaster recovery and mitigation planning and development activities.
23. The Action Plan must describe how planned electrical power system improvements will be integrated with on-going and planned rebuilding, recovery, and mitigation activities, and the extent to which the proposed electrical power system improvement activities are consistent with the objectives outlined in other CDBG-DR or CDBG-MIT action plans, regionally or locally established plans and policies that are designed to reduce future risks to the jurisdiction.
24. The Action Plan must describe how planned electrical power system improvements will impact vulnerable populations, protected classes under fair housing and civil rights laws, and undeserved communities.
25. The Action Plan shall also describe how the planned electrical power system improvements will meet the overall benefit requirement for low-and-moderate income benefit as provided in section.
26. The Action Plan must describe how the electrical power system improvements will be designed and implemented to address the impacts of climate change, including any nature-based solutions and other improvements that will enhance the ability of the grantee to implement renewable and clean energy sources and strategies, and align with long-term goals for decarbonizing the electricity sector.

17.0 SELECTION PROCESS

VIHFA will evaluate all Proposals that are received in a proper and timely manner to determine whether they meet the submission requirements. Awards are made to the most responsive bidder that provides the proposal that is most advantageous to VIHFA, considering such factors as the Bidder's ability to perform the work of the kind involved in the bid under consideration, the Bidders' past experience, time of delivery, etc. and not solely the lowest price.

VIHFA, at its sole discretion, will determine which Proposal best satisfies its requirements. All Proposals deemed to be responsive to the requirements of this RFP will be evaluated and scored for technical qualities and price. Proposals that are materially deficient in meeting the submission requirements of this RFP or have omitted material documents may be eliminated from consideration at the sole discretion of VIHFA. The evaluation process will include separate technical and price evaluations and will be conducted as set forth herein.

Through an evaluation panel, VIHFA will establish a shortlist, either through a natural break in scores or a technically viable cut off technical score. The panel will then invite those firms on the shortlist to interview and demonstrate their knowledge. Firms that do not make the shortlist based on technical score will not be asked to interview. After the interviews, the panel will evaluate the Price Proposals of only those proposals that have made the cut off/it deems technically qualified. Depending on the number of respondents, VIHFA reserves the right to deviate from this approach.

VIHFA reserves the right to award contracts based on initial proposals received, without discussions; therefore, the Respondent’s initial proposal should contain its best technical and price terms.

The Evaluation Committee Panel is responsible for evaluating all responsive Respondents’ submittals. The Evaluation Committee Panel will consider the following criteria:

Evaluation Factors	Total Points
<u>Technical</u>	
Technical Qualifications and Experience	25
Action Plan Services Capabilities	25
Approach and Methodology	20
<u>Interviews</u>	
Interviews	10
<u>Pricing</u>

CONFLICT OF INTEREST

By signing this form, the Respondent certifies that, to the best of its knowledge and belief, there are no relevant facts or circumstances that could give rise to an organizational or personal conflict of interest, for the organization or any of its staff, and that the Respondent, subcontractor, employee, or consultant has disclosed all such relevant information if such a conflict of interest appears to exist to a reasonable person with knowledge of the relevant facts (or if such a person would question the impartiality of the Respondent, subcontractor, employee, or consultant).

Conflicts may arise in but not limited to the following situations:

- (a) Unequal access to information. A potential respondent, subcontractor, employee, or consultant has access to non-public information through its performance on a government contract for disaster recovery services in the Virgin Islands.
 - (b) Biased ground rules. A potential respondent, subcontractor, employee, or consultant has worked, in one government contract, or program, on the basic structure or ground rules of another government contract for disaster recovery services in the Virgin Islands.
 - (c) Impaired objectivity. A potential respondent, subcontractor, employee, or consultant, or member of their immediate family (spouse, parent, or child) has financial or other interests that would impair, or give the appearance of impairing, impartial judgment in the evaluation of government programs, in offering advice or recommendations to the government, or in providing technical assistance or other services to recipients of Federal funds as part of its contractual responsibility.
- 1) Proposer must provide the disclosure described above on any actual or potential conflict of interest (or apparent conflict of interest) regardless of their opinion that such a conflict or potential conflict (or apparent conflict of interest) would not impair their objectivity.
 - 2) In a case in which an actual or potential conflict (or apparent conflict of interest) is disclosed, the VIHFA will take appropriate actions to eliminate or address the actual or potential conflict, including but not limited to mitigating or neutralizing the conflict, when appropriate, through such means as ensuring a balance of views, disclosure with the appropriate disclaimers, or by restricting or modifying the work to be performed to avoid or reduce the conflict. In this clause, the term “potential conflict” means reasonably foreseeable conflict of interest.
 - 3) The Respondent, subcontractor, employee, or consultant agrees that if “impaired objectivity”, or an actual or potential conflict of interest (or apparent conflict of interest) is discovered after the award is made, it will make a full disclosure in writing to the contracting officer. This disclosure shall include a description of actions that the Proponent has taken or proposes to take to avoid, mitigate, or neutralize the actual or potential conflict (or apparent conflict of interest).

The Respondent, _____, hereby certifies that, to the best of its knowledge and belief, there are no present or currently planned interests (financial, contractual, organizational, or otherwise) relating to the work to be performed under the contract or task order resulting from Request for Proposal No. **RFP 001-2022-DR-STT/STX** that would create any actual or potential conflict of interest (or apparent conflicts of interest) (including conflicts of

interest for immediate family members: spouses, parents, children) that would impinge on its ability to render impartial, technically sound, and objective assistance or advice or result in it being given an unfair competitive advantage. In this clause, the term “potential conflict” means reasonably foreseeable conflict of interest. The Respondent further certifies that it has and will continue to exercise due diligence in identifying and removing or mitigating, to the VIHFA's satisfaction, such conflict of interest (or apparent conflict of interest).

34. **CHANGE ORDERS TO CONTRACTS**

Change orders are issued when the initial agreed upon pricing or work to be completed requires modification. First, the contractor must complete a Change Order Request Form. 35. **ENVIRONMENTAL REVIEW**

Every project undertaken with Federal funds, and all activities related to that project, is subject to the provisions of the National Environmental Policy Act of 1969 (NEPA), as well as to the HUD environmental review regulations at 24 C.F.R. Part 58- ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES.

The primary purpose of this Act is to protect and enhance the quality of our natural environment. The HUD environmental review process must be completed before any Federal funds can be accessed for program-eligible activities.

The primary objectives of the HUD environmental review are to identify specific environmental factors that may be encountered at potential project sites, and to develop procedures to ensure compliance with regulations pertaining to these factors. The HUD environmental review is designed to produce program-specific environmental review procedures in a program that can vary greatly in terms of scope of work.

36. **LEAD BASED PAINT**

All housing units assisted using CDBG-DR funds must comply with the regulations regarding lead-based paint found at 24 C.F.R. Part 35- LEAD-BASED PAINT POISONING PREVENTION IN CERTAIN RESIDENTIAL STRUCTURES.

37. **ENVIRONMENTAL REVIEW RECORD**

The Environmental Officer is responsible for maintaining a written record of the environmental review process. The ERR for all programs contains all the governmental review documents, public notices and written determinations or environmental findings required by 24 C.F.R. Part 58- ENVIRONMENTAL REVIEW PROCEDURES FOR ENTITIES ASSUMING HUD ENVIRONMENTAL RESPONSIBILITIES as evidence of review, decision making and actions pertaining to a project of a recipient.

38. **FLOOD INSURANCE REQUIREMENTS**

Grantees and subrecipients of Federal funding must ensure that procedures and mechanisms are put into place to monitor compliance with all flood insurance requirements as found in the Flood Disaster Protection Act of 1973, 24 C.F.R. § 570.605- NATIONAL FLOOD INSURANCE PROGRAM and 24 C.F.R. § 570.202- ELIGIBLE REHABILITATION AND PRESERVATION ACTIVITIES.

39. **DUPLICATION OF BENEFITS**

CDBG-DR funding intends to address the unmet needs of a community. The funds are supplemental to primary forms of assistance, including private insurance and FEMA funds. The Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), as amended, 42 U.S.C. § 5121 et seq., established the requirements for Duplication of Benefits (DOB) analysis.

40. **ANTI-FRAUD, WASTE AND ABUSE CHECKS**

The Anti-Fraud, Waste and Abuse (AFWA) check is designed to identify discrepancies and risk-relevant issues in Applicant-provided information that may be indicative of fraud, waste, and/or abuse.

41. **AFFIRMATIVELY FURTHERING FAIR HOUSING**

The Fair Housing Act of 1968, as amended, 42 U.S.C. § 3601, et seq., dictates that grantees are required to administer all programs and activities related to housing and urban development in a manner to affirmatively further the policies of the Fair Housing Act. Per the regulations of 24 C.F.R.

§ 570.601 and in accordance with Section 104(b)(2) of the Housing and Community Development Act of 1974, as amended, 42 U.S.C. § 5301 et seq., for each community receiving a grant under Subpart D of this part, the certification that the grantee will affirmatively further fair housing shall specifically require the grantee to take meaningful actions to further the goals identified in the grantee's Assessment of Fair Housing (AFH) plan, conducted in accordance with the requirements of 24 C.F.R. §§ 5.150-5.180 (Affirmatively Furthering Fair Housing) and take no action that is materially inconsistent with its obligation to affirmatively further fair housing.

42. **DRUG FREE WORKPLACE**

The Drug-Free Workplace Act of 1988, as amended, 41 U.S.C. § 81, as implemented by 24 C.F.R.

§ Part 24, Subpart F, §§ 983.251-983.262, requires that any grantee other than an individual must certify that it will provide a drug-free workplace. Any grantee found in violation of the requirements of this act may be subject to suspension of payments under the grant, suspension or termination of the grant or suspension or debarment of the grantee.

43. **TIMELY DISTRIBUTION OF FUNDS**

The Supplemental Appropriations for Disaster Relief Requirements, 2017 (Pub. L. 115-56), approved September 8, 2017 (Appropriations Act), as amended, requires that funds provided under the Act be expended within two (2) years of the date that HUD obligates funds to a grantee unless otherwise authorized via waiver of this requirement by the Office of Management and Budget (OMB). The OMB waived the two (2) year expenditure requirement under 83 Fed. Reg. 40314 (Aug. 14, 2018); however, the provision to expend one hundred percent (100%) of the total allocation of CDBG-DR funds on eligible activities within six (6) years of HUD's initial obligation of funds remains in effect. The six (6) year expenditure period commences with the initial obligation of funds provided under 83 Fed. Reg. 5844 (Feb. 14, 2018). Additionally, per 83 Fed. Reg. 5844, the provisions at 24 C.F.R. §§ 570.494 and 570.902, regarding timely distribution and expenditure of funds, are waived and an alternative requirement was established.

Furthermore, consistent with 31 U.S.C § 1555 and OMB Circular No. A-11 (2017), if the Secretary of HUD or the President of the United States determines that the purposes for which the appropriation was made have been carried out and no disbursement has been made against the appropriation for two (2) consecutive fiscal years, any remaining unobligated balance shall be canceled and will be made unavailable for obligation or expenditure for any purpose.

44. **PROPERTY MANAGEMENT AND DISTRIBUTION**

Regulations governing property management and distribution of real property, equipment, financial obligations and return of un-obligated cash post program closeout can be found in 24 C.F.R. § 570.506, 2 C.F.R. § 200.310, 2 C.F.R. § 200.343 and 2 C.F.R. § 200.344(b). The standards of 24 C.F.R. § 570.506 apply to any real property under a CDBG award recipient's control acquired in whole or in part with CDBG funds in excess of \$25,000.00. The recipient may not change the use or planned use of the property without proper notification to affected citizens and allowable time for comment by them. If the property is not a building for general government conduct, the use of the property may be changed with citizen approval if it either meets one of the national objectives as defined in 24 C.F.R. § 570.208 or if not, the recipient may either retain or dispose of the property

for the changed use if the recipient's CDBG program is reimbursed in the amount of the current fairmarket value of the property, less any portion of the value attributable to expenditures of non- CDBG funds for acquisition of, and improvements to, the property. Following such reimbursement, the property will no longer be subject to any CDBG requirements.

45. **LIMITED ENGLISH PROFICIENCY**

Executive Order No. 13166, signed on August 11, 2000, requires programs, subrecipients, contractors, subcontractors, and/or developers funded in whole or in part with CDBG-DR financial assistance to ensure fair and meaningful access to programs and services for families and individuals with Limited English Proficiency (LEP) and/or deaf/hard of hearing. Fair access is ensured through the implementation of a Language Assistance Plan (LAP), which includes non- English-based outreach, translation services of vital documents, free language assistance services, and staff training. Vital documents are defined as depending on the importance of the program, information, encounter, or service involved, and the consequence to the LEP person if the information in question is not provided accurately or in a timely manner.

46. **PERSONALLY IDENTIFIABLE INFORMATION**

In accordance with 2 C.F.R. § 200.303, regarding internal controls of a non-Federal entity, a grantee must guarantee the protection of all Personally Identifiable Information (PII) obtained. The program will enact necessary measures to ensure PII of all applicants is safeguarded as to avoid release of private information. If a contractor or employee should experience any loss or potential loss of PII, the program shall be notified immediately of the breach or potential breach.

47. **UNIFORM RELOCATION ACT**

CDBG-DR funds are subject to the Uniform Relocation Assistance and Real Property Acquisition Act of 1970 (URA or Uniform Act), as amended. 49 C.F.R. § Part 24 requires relocation assistance for lower-income individuals displaced as a result of the demolition or conversion of a lower- income dwelling and requires one-for-one replacement of lower-income units demolished or converted to other uses.

49. **COMPLAINTS AND APPEALS**

Citizen comments on VIHFA's published Action Plan, any substantial amendments to the Action Plan, performance reports and/or other issues related to the general administration of CDBG-DR funds are welcomed throughout the duration of the grant. The Citizen Participation Plan is posted as a stand-alone document at www.vihfa.gov. Complaints regarding fraud, waste, or abuse of government funds shall be addressed to the HUD Office of Inspector General Fraud Hotline by phone: 1-800-347-3735 or email: hotline@hudoig.gov.

50. **MONITORING**

As per CDBG regulation, 24 C.F.R. § 570.501(b), grantees of CDBG-DR funds are responsible for carrying out their programs to meet compliance with CDBG Program, statutory and regulatory requirements, including monitoring their project administrators, contractors, and subcontractors. As such, throughout the application, planning, design, and implementation phase of the program, VIHFA will conduct internal monitoring of processes, procedures, policy, applications, planning, design, construction, and other applicable phases.

51. **PROCUREMENT OF RECOVERED MATERIALS**

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part

247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds

\$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
