“CONFIDENTIAL BID SUBMISSION”
1.0 INTRODUCTION
The Virgin Islands Housing Finance Authority-Community Development Block Grant-Disaster Recovery (“VIHFA-CDBG-DR”) is soliciting request for qualifications from highly qualified and skilled environmental firms to provide Abatement Services for Community Development Block Grant-Disaster Recovery EnVision Program.

1.2 GOALS AND OBJECTIVES
The objectives include, but are not limited to, conducting HUD-mandated Environmental Reviews per 24 CFR Part-58, Part 55 and Part 51 for the VIHFA’s CDBG-DR Program in a timely, efficient and compliant manner so that recovery funding can flow in a timely manner to recipients in need of recovery assistance.

2.0 SCOPE OF WORK
The scope of services identified below is intended to ensure that Lead Base Paint (LBP) and Asbestos Services are available to aid eligible applicants of VIHFA EnVision Housing Programs with the treatment of asbestos and lead based paint.

The selected Respondent(s) will consult with regulators to implement the requirements of the Environmental Reviews for each project and set forth in 24 CFR Part-58 HUD Environmental Reviews, and to assist in the preparation of various reports, forms and studies as identified in the two (2) tasks outlined below. The scope of services to be provided by the Respondent(s) are summarized in the following two (2) tasks.

Successful Respondents must be able to provide adequate personnel to complete each project within the specified timeframe(s). Successful Respondents must have a flexible organization that can perform multiple (four (4) or more) assignments simultaneously for emergency and non-emergency work.

Respondents are advised that VIHFA will engage the services of an independent environmental firm to monitor all LBP and Asbestos Services activities performed by the successful Respondent(s), to ensure compliance with all state, local and federal regulations. The successful Respondent(s) will cooperate with the independent environmental firm and follow all directions given by or on behalf of the independent environmental firm's project monitor.
2.1 TASKS

Task 1- Asbestos Abatement

a. All work shall be done in strict accordance with all applicable federal, state, and local regulations, standards, and codes governing asbestos abatement and any other trade work done in conjunction with the abatement. The most recent edition of any relevant regulation, standard, document, or code shall be in effect. Where conflict among the requirements or with these specifications exists the most stringent requirements shall be utilized.

b. The Respondent must work with VIHFA personnel and other identified stakeholders to complete all forms and make any and all notifications required of a homeowner needing abatement of asbestos containing materials (ACM) and potential asbestos containing materials (PACM) at residential properties.

c. All asbestos workers must have all proper certification for the type of asbestos work they are performing.

d. Provide testing confirmation and certification of the presence of asbestos (if necessary).

e. Prepare abatement and safety plans to include certification of all managerial and on-site personnel. Abatement and safety plans shall be approved by the Department of Planning and Natural Resources (DPNR) and VIHFA prior to commencing work. Schedule all transmittal correspondence required for submittal to DPNR for the abatement projects.

f. Removal and/or encapsulation of asbestos containing materials by competent persons trained, knowledgeable and qualified in the techniques of abatement, handling and disposal of asbestos containing and asbestos contaminated materials and the subsequent cleaning of contaminated areas.

g. Supply all labor, materials, services, insurance, permits and equipment necessary to carry out the work in accordance with all applicable Federal, State and Local regulations.
h. Provide a final project close out report.

i. Mobilization shall include an air quality plan.

j. Installation:
   i. Installing of warning signs, onsite sign board displaying all required such as permits, labor and regulatory information.
   ii. Installation of onsite containment features.
   iii. Installation, maintenance, and removal of air quality equipment in areas where asbestos containing materials are being abated.

k. Restoration:
   i. Responsible for restoring the work area and auxiliary areas utilized during the abatement to conditions equal to or better than original as specified in individual scope of work.
   ii. Any damages caused during the performance of abatement activities shall be repaired (e.g. paint peeled off by barrier tape, nail holes, water damage, broken glass) at no additional expense to VIHFA or owner of the property.

l. Demobilization:
   i. Project clean-up including the removal of all abatement equipment.
   ii. Provide disposal services to remove all materials tested for asbestos.
   iii. Must be compliant with all applicable laws local, state and federal when disposing and transporting hazard materials.
   iv. During the progress of work, remove and dispose all debris (non-asbestos containing included) and keep the premises clean. Upon completion of the work, the Respondent shall remove all construction equipment and surplus materials.
   v. Respondent shall provide VIHFA with disposal record/documentation and certification of disposal of hazardous waste, such as receipts, at a regulated facility.
Task 2 – Lead Based Paint Remediation

a. All work shall be done in strict accordance with all applicable federal, state, and local regulations, standards, and codes governing LBP remediation and any other trade work done in conjunction with the remediation. The most recent edition of any relevant regulation, standard, document, or code shall be in effect. Where conflict among the requirements or with these specifications exists the most stringent requirements shall be utilized. Specifically, LBP work must conform with the requirements for Insular Areas, stated in 24 CFR, Part 35 Subpart J, §35.940.

b. The Respondent must work with VIHFA personnel and other identified stakeholders to complete all forms and make any and all notifications required of a homeowner needing treatment of LBP and potential lead containing materials at residential properties.

c. All LBP workers must have all proper certification for the type of work they are performing.

d. Prepare abatement and safety plans to include certification of all managerial and on-site personnel. Abatement and safety plans shall be approved by the Department of Planning and Natural Resources (DPNR) and VIHFA prior to commencing work. Schedule all transmittal correspondence required for submittal to DPNR for the abatement projects.

e. Treatment of LBP containing materials per §35.940, by competent persons trained, knowledgeable and qualified in the techniques of LBP treatments, handling and disposal of lead containing and lead contaminated materials and the subsequent cleaning of contaminated areas.

f. Supply all labor, materials, services, insurance, permits and equipment necessary to carry out the work in accordance with all applicable Federal, State and Local regulations.

g. Provide a final project close out report.

h. Implement safe work practices during rehabilitation work in accordance with Federal Regulations under 24 CFR, Part 35 Subpart J, §35.1350 and repair any paint that is disturbed by rehabilitation.
i. Demobilization:
   i. Project clean-up including the removal of all abatement equipment.
   ii. Provide disposal services to remove all materials tested for lead.
   iii. Must be compliant with all applicable laws local, state and federal when disposing and transporting hazard materials.
   iv. During the progress of work, remove and dispose all debris (non-lead containing included) and keep the premises clean. Upon completion of the work, the Respondent shall remove all construction equipment and surplus materials.
   v. Respondent shall provide VIHFA with disposal record/documentation and certification of disposal of hazardous waste, such as receipts, at a regulated facility.

If LBP is to be disturbed in connection with VIHFA-funded activities, it must be conducted by personnel certified to perform such activities as abatement supervision, or renovation, in accordance with 24 CFR 35.940, Special Requirements for Insular Areas; 40 CFR Part 745, subpart E and L; pursuant to applicable Federal and Territory regulations.

When lead remediation is to occur, a clearance test will be required to verify conformance with § 35.1350.
